Re: U.S. Patent No. 8,287,946
FUMIN CORPORATION
Katsuo YAGISAWA - Our Ref. 007016-07103
Your Ref.: W3169-02C3

Dear Colleagues:

We are pleased to enclose the original Letters Patent numbered 8,287,946 issued October 16, 2012 on the above application.

Please check the patent very carefully and advise us promptly if you note any errors or omissions which necessitate a Certificate of Correction. It is not necessary to return the original Letters Patent with your instructions.

Articles manufactured under this patent must be marked with the word "patent" and the number to enable the patentee to recover full damages in an infringement suit.

This patent has issued from an application that was filed on or after June 8, 1995. Thus its term will end 20 years from the patent's earliest effective U.S. filing date subject to a patent term extension under 35 USC 154(b) of 1356 days. The earliest effective U.S. filing date includes the filing date of prior U.S. applications, as well as any PCT international application designating the U.S., from which this patent claims priority. A foreign priority date has no effect on the U.S. patent term.

It will be necessary to pay GOVERNMENT MAINTENANCE FEES to keep the patent in force. These fees are payable during the term of the patent after a lapse of 3-1/2, 7-1/2 and 11-1/2 years calculated from the date of patent issuance. We refer you to the Notice on the inside cover of the Letters Patent Grant.

ASAMURA PATENT OFFICE

November 27, 2012

Page 2

For your convenience, we have listed below the due dates for payment of these fees for the captioned patent. We have entered these dates in our docketing system, and we strongly urge that you too make a record of these important dates.

Very truly yours,

for James E. Ledbetter

JEL/jbr
