

## Car window application

Scratch resistance - not easy to get scratches by raising and lowering windows  
Distortion free  
Effective air-conditioning - heating or cooling faster  
Defrost car windows faster

Glass without distortion

## Performance test of FUMIN COATING on Car window.

Before test : 16.9°C

375W infrared light irradiation for 1.5min.

With FUMIN COATING  
After IR light irradiation : 21.8°C

Without FUMIN COATING  
After IR light irradiation : 31.5°C

Heat Insulating Performance of FUMIN COATING is -9.7°C
